Benefits of Mineral Makeup

Saturday, April 4, 2009

2:00 pm to 4:00 pm

Light refreshments will be served

For women who are challenged with rosacea, dryness, acne or other skin ailments, utilizing mineral makeup allows them to take advantage of a skin-friendly product, manufactured with minerals which are sterilized and pulverized into a very fine powder. Mineral makeup does not exacerbate skin problems with damaging oils and chemical additives. It does not block the skin's pores or provide a breeding ground for bacteria. These products formulated by Jane Iredale Mineral Makeup provide beneficial ingredients to guard the skin from the sun's harmful rays.

Speaker and demonstration from Jane Iredale Mineral Makeup *

*(If you would like to have a mineral makeup application, please sign up upon arrival).
